Soap Dispenser

Sanitex

Soap Dispenser

Handwashing is the activity that has the single largest impact on reducing the spread of disease.

The Sanitex® soap dispensing system has a unique patented design enabling a choice of refill options to be dispensed from one universal dispenser. The easy to change pouch refills come in a variety of formulations for every hand care requirement.

Easy change pouch refills with patented 'sealed until installed' technology ensure that servicing the dispenser is both quick and simple.

Key lock for added security. Durable ABS plastic.

Dispenser available with white or chrome colour insert options.

Sanitex® refills are available in high quality, pleasantly fragranced, luxurious liquid, spray or foam soap formats. 800ml disposable collapsible pouches.

Liquid Soap Refills: Fixed 1ml shot size, providing approximately 800 shots per refill.

Foam Soap Refills: Fixed 0.6ml shot size, providing approximately 1333 shots per refill.
